

Dupont Building, the industry-leading manufacturer of quality shelters for more than 30 years, is proud to introduce Steel Interlocking Panel Buildings to our selection of equipment shelters.

Steel Interlocking Panel Buildings are made of all non-combustible materials used for the most critical MCC applications, and offer a choice of steel thickness based on application.

Maintaining the Dupont Building reputation for "custom build" shelters, the Steel Interlocking Panel Buildings are available in any size from 4'x4' to 16'x50', with modular options available for almost limitless sized buildings. Additionally the interior is completely customer specific- we can provide installation of customer owned equipment or complete turnkey buildings.

Dupont Building has one of the quickest lead-times in the industry, as well as certification in all 50 states. Put our experience and flexibility to work, and choose Dupont Building as your one stop shop for multiple types of shelters, buildings and applications.

For more information, contact us, or visit our website.

Steel Interlocking Panel Buildings

**Fully customizable interiors
Sizes from 4'x4' to 16'x50'**
